FINE MELAMINE WARE

Recon™

Welcome

At Recon Industries we continuously advance the boundaries of design and innovation. At the core of our business we are passionate about innovation, sustainability, design and quality, tireless in our pursuit of market leading innovative solutions, whilst knowing that 1st class service is paramount in creating a trusted and dependable brand.

Recon buffet and tableware is made from premium quality, light weight, durable melamine and is available in many forms, from melamine bowls, plates, dipping dishes to serving trays, and ramekins.

Recon collections offer a wide range of colours and styles, making it an aesthetically versatile product that enhances almost every setting. Melamine can increase your customers perception of your business and save you money.

WHY CHOOSE RECON MELAMINE ?

CERAMIC LOOK & FEEL

The intricate design, detail and quality of our products replicate the look and feel of ceramics, making it an excellent alternative to ceramic products. Recon melamine mimics the appearance of other materials including china, stoneware and wood.

PRODUCT DIVERSITY

We manufacture a diverse range of melamine products including dipping dishes, trays, ramekins, display slabs, serve-ware essentials and much more. Available in a wide range of colours and decorative styles, our collections give you breadth of choice and endless display opportunities.

100% FOOD GRADE MELAMINE

Recon products are manufactured from 100% pure melamine, fully compliant with food grade standards. We regularly test our products to ensure safety for use in food service that comply with EU directives.

LIGHTWEIGHT & EASE OF USE

Protect your staff from strains with lightweight melamine dinnerware, allowing your staff to carry large serving trays, deliver meals faster, and avoid hurting themselves.

DURABLE & STRONG

Using melamine saves replacement costs, as it's significantly more durable than ceramics and difficult to break, chip or scratch, making it the ideal choice for maximised return on investment. Melamine is extremely difficult to break and will not shatter if dropped, unlike typical ceramics - a wise choice for dining halls and high volume operations.

DESIGN INNOVATION

Recon are experts in design and product innovation delivering outstanding and original designs, precise product customisation and high-standard quality products.
